

Cash to Upgrade or Remove your Uncertified Wood Burning Stove!

ATTENTION PLACER COUNTY RESIDENTS:

REPLACE YOUR NON-EPA CERTIFIED WOOD STOVE AND RECEIVE A
\$500-\$600* INCENTIVE REFUND FROM THE
PLACER COUNTY AIR POLLUTION CONTROL DISTRICT (APCD)!

***Up to \$3,000 for qualified low-income applicants!**

Upgrade to Clean the Air!

Chimney Smoke Reduction Incentive Program (Chimney Smoke RIP)

APCD will reimburse for qualifying wood stove removal or replacements (see reverse). The US EPA estimates replacing a non-certified stove with an EPA-certified stove will reduce up to 100 pounds of particulate matter emissions each year and removing 1 stove is like removing 5 diesel buses¹.

To Qualify:

- ✓ You **MUST** receive **Pre-Approval** from APCD prior to removing the wood-burning device.
- ✓ Old wood stove must NOT be an EPA certified unit (i.e., older than 1988)
- ✓ New unit must be EPA-certified, or be a Propane, Natural Gas or Electric Stove or Insert.
- ✓ Home must be more than one year old (no new home construction).
- ✓ Please note: Complete removals or replacements with pellet stoves are NOT eligible.

Application Requirements:

- ✓ Documentation confirming removed device is permanently deactivated.
- ✓ After photo of newly installed unit
- ✓ Receipt for new unit
- ✓ Building Permit (if applicable) for the wood stove removal or changeout with inspection.

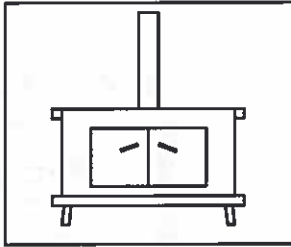

Reimbursement checks will be issued directly to the approved Applicants on a first-come first-serve basis, until funding is depleted. (Expect at least one month for processing payment). Reimbursement will not be issued without itemized receipt from a licensed disposal or metal recycling facility.

Additional terms and conditions apply. El Dorado County AQMD is administering this program on Placer County APCD's behalf. Please call AQMD at 530-621-7501.

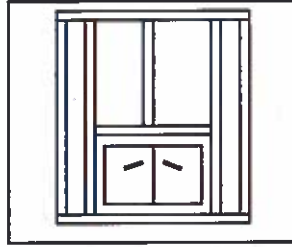

(See reverse for funding levels).
